Even if the ciams upon this fund were confined to the obligations originally ligations when received and redeemed in | will divet, but he will remain in the city gold are not cancelled but are remaned cons antly depleting the treasury's gold and never near a final rest As if this were not bad enough we have by a statutory declaration that it is the policy of the demption. Our small gold reserve is thus subject to withdrawais from every side. also increase the necessity of protecting this reserve against depletion and it is most unsatisfactory to know that the protection afforded is only a temporary palli ation. It is perfectly and palpably plain that the only way under present conditions by which this reserve, when danger ously depleted, can be replenished, has not only thus far declined to authora purpose, but there seems a disposition I cannot for a moment believe tha any of our citizens are deliberately will

that their government should defaul its pecuniary obligations or that it were done if I omitted any effort I could make to avert such a calamity. As long therefore as no provision is made for the final redemption or the putting saide of the currency obligations now used to re peatedly and constantly draw from th government its gold, and as long as no better authority for bond issues is allowed than at present exists, such authority will be utilized whenever and as often as it becomes necessary to maintain a sufnevent gold reserve and in abundant time

BANKS AND CCRRENCY. Questions relating to our banks and currency are closely connected with most needed in other parts of the country. The absolute divorcement of the government to the circulation of the cur-rency of the country is demanded. This condition cannot be immediately reached but as a step in that direction and as a means of securing a more elastic currency cuts the rates the same amount, and somer Miller Illinois stands first in the further provides that when the upper list of states paying internal revenue borth is not in use it shall be kept shut, taxes, while Kentucky ranks second and and that a safe shall be provided for val. New York third. The amounts paid by uables and the Pullman company shall these three states during the year ending laws and providing for the under responsible for losses. The amounts paid by late banks free from taxation under certain limitating June 30, 1894, were as follows. The amounts paid by an exception under certain limitating. tions. The secretary explains his plan so plainly and its advantages are devel-oped by him with such remarkable clearness that any effort on my part to present arguments in its support would be su-perfluous. I shall therefore content my buy a trial size self with an unqualified endorsement of any drug store

the secretary's proposed changes in the of their prominent features. THE SCHEME

It is proposed to repeal all laws providing for the depose of United States bonds as security for circulation and to permit National banks to issue circulating notes not exceeding in amount 75 per cent of their paid up and unimpaired capital provided they deposit with the government as a guarantee fund in United States legal notes including U. S. treasury notes of 1891, equal in amount to 30 per cent of the notes they desire to mene; the deposit to be maintained at all times, but whenever any bank retires any part of its circulation a proportional part of its guarantee fund shall be returned to it to permit the secretary of the treasury to prepare and keep on hand ready for insue in case an increase in circulation is desired, blank National bank notes for each bank having circulation and to repoeing limitations and restrictions upon to provide a safety fund for the immedito five per cent of the total circulation, When a bank fails its guar-nice fund is stactures should bud a market in every stance from such safety fund thus angmented; any impairment of such fund caused thereby to be made good from the immediate available cash assets of said bank. And if these should be insufficient, such impairment to be made good by pro-

> ontributing banks It is quite likely that this scheme may e usefully amended in some of its details, but I am satisfied it furnishes a baeis for a very great improvement in our

rata assessments among the other to

CONCLUSION I conclude his communication fully appreciating that the responsibility for leg-States rests upon their representatives in the congress and assuring them that whatever accordance with recommendanote I have nade or not I shall be glato co-operate in perfecting any legislation that tends to the prosperity and welfare of our country.

Judge Collier Declares the Three Precincts in this County.

VICTORY FOR HUBBELL.

This morning, Judge Collier rendered the following decision in the ele tion ases-the location of the three precincts, Nacimiento, La Jara and Gonzalitos-the titles of the cases being Leonard Skinner vs Board of County Commissioners, injunction, and Leonard Skinner vs. Board of County Commissioners, mandamus:

In these cases I have deemed it to be

in the interest of the public for me to de-

It seems reasonably certain from the proofs submitted, that the line designated by the act of the legislative assembly of 1852, as the line dividing first Santa Ana and Rio Arriba counties and afterwards Bernalillo and Rio Arriba counties is about the center of township 20, norti has returned to Las Vegas. She was ac- as shown by the public land surveys and that the precincts of Nacimiento and La Jara and about one-half of the precinct of Genzalites are to the north of ill for the past few days, is reported by said line and therefore in Rio Arriba county. The question for rolution ther is, shall that control, or are these precincts to be considered as constituting first a part of Santa Anna county and lat prior to 1873 it was understood by the people generally who lived in that coun ty that the portion of the Jemes moun tains which lie to the north of these pre-cincts was the dividing line; that in 1873 the legislative assembly erected a pretains which he to the north of these cinct out of that county and declared be a precinct of Santa Ana county and ever since there have been acquiescence

> terwards in Bernalillo county.
>
> The act of 1873 recites "that all th western portion of the county of Santa Espiritu Santo, Rio Puerco, San and San Jose and to the extent of the north and south boundaries of the councinct No 4 of the county of Sauta Ana It is shown that Rio Puerco, San Pab and San Jose are all north of the line of township 20 north; that of these San Jose

were first in Santa Anna county and af-

is the most northerly, and that there Nov. 16 to Nov. 30, inclusive, was read. City on Tuesday, and continued north no other place within fifty miles of said and shows number of arrests, 80; fines vesterilay morning. S. S. Ackers, of Fiagetaff, was con-victed in a justice court or neglecting to Santa Ana and afterwards of the count of Bernaldio were elected from that time to the present with no pretence of a claim by the county of Ro- Arriba of any juris diction or authority over this county Taxes have been assessed and paid, jury service rendered, crimes punished, vote cast and counted in all elections as o precincts outside of the county of Rio Aribs and within the counties of Sants Ans and Bernaldle.

Decisions of judicial tribunals of last resort in the states of Leuisians, Illinois, New York, New Ham, shire, Michigan and Virginia are to the effect that in in stances of acquiescence of the kind prove in this case courts are losth to overture the practical interpretation that has a long been given and recognized, because of its being to the interest of the public quiescence and interpretation has costic sed for long years, and in addition go ernmental organizations are express

nally granted. Thus, in Ben vs. Allentown, 34 N. H. conferring the powers of a town in futur-if it had not before been incorporated Also, in People vs. Farcham, 35 Ill., 566 poration has been recognized by enact-ments of the general assembly, all inquiry

into the original organization is pre-cluded. To about the same effect are the Milne vs. Mayor, 13 La , 47 People vs. Mynard, 15 Mich., 470. Rumsey vs People, 19 N Y.

I have been furnished with but one decision at all mulitating against contention the County of Grand vs. the County of Larimer, 11 Pac. Rep., 193. That cas presents, however, no such facts as to ac quiescence and recognition by legislation as does this, and it does appear toat the question of boundary was more a neg lected question than an acquisecence condition

It appearing to me that the act of th legislative assembly of December, 1873. establishing precinct 4 of Santa And county placed these precincts in said county, if before they were not, and that upon the abolition of said county they became a part of Bernahilo county, I find that they have been said to be a said to that the injunction should be dissolved : the first and peremptory mandamus d nied in the second, of the said cause and it is accordingly so ordered.

For every variety and phase of th many diseases which attack the air pas sages of the head, throat and lungs Ayer's Cherry Pectoral will be found specific. This preparation allays inflam ation, controls the disposition to coug and prevents consumption

## SICK-HEAVAUHE

Makes life miserable. All other ailments are as nothing in comparison. Women especially know its suffering, and few escape its torture.

THE RELIEF AND CURE IS

Many people take pills, which gripe and purge, weakening the Regulator, liquid or powder, because more pleasant to take, does not gripe, and is a mild laxative. that also tones up the system. The relief is quick. It is Nature's own remedy, purely vegetable. "I never found anything to do me any good until I used Mimmons Liver Regulator. It has been three years since I first used it and I have not bed Mick Headache since. I sent my sister, the had from one to two attacks of Sick Headache every week) one-half of a pack size, and she had not had it since."—C. S. Morain, Browns ville, W.V.
